

August 23, 2018

Dear Parents/Guardians:

We are pleased that the 2018-2019 school year is off to a great start.

Student and staff safety is always a top priority for the District. Among other measures in place this year, all of our schools have metal detectors that may be used by school administrators as a safety measure when necessary and appropriate. The use of the metal detectors will be discussed at the first PTO/PTSO meeting.

If you have any questions prior to the PTO/PTSO meeting, please call your child's principal.
